INTRODUCTION

Autodesk Construction Cloud:

Connect Workflows, Teams & Data, to help deliver projects better.

5th CitA BIM Gathering Virtual Conference

21 - 23 September 2021

Construction is massive, made of many challenges and is changing quickly

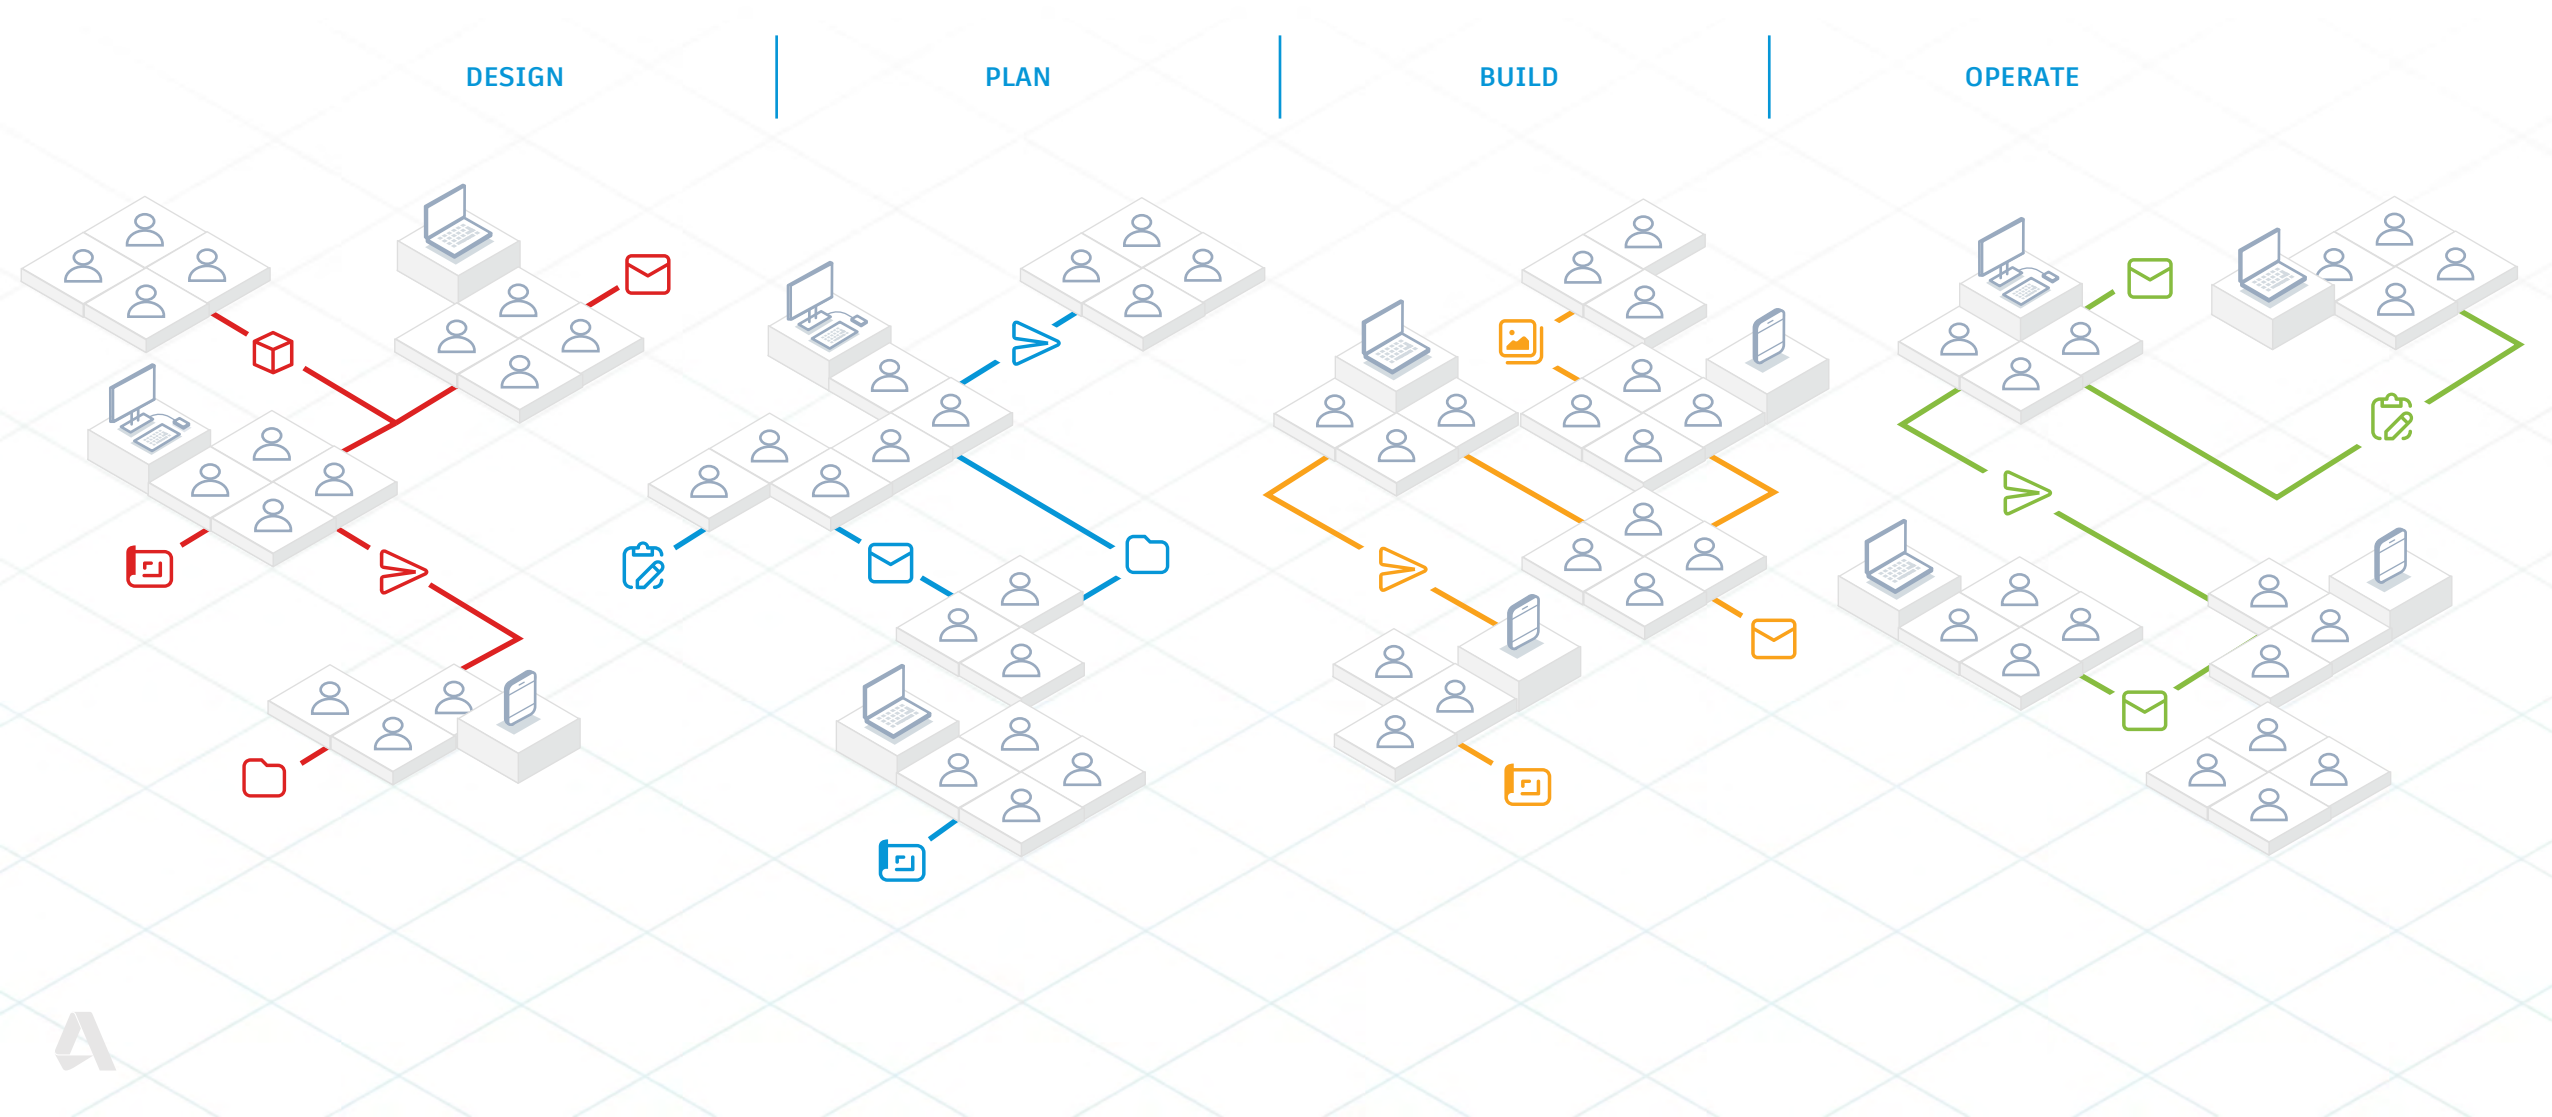

Sentiment

- Winning Work
- Increased Collaboration
- Broken Processes
- Safety on the jobsite
- Project Delays
- Tight to Low Margins
- Avoidable Rework
- Lack of Predictability
- Data Ownership

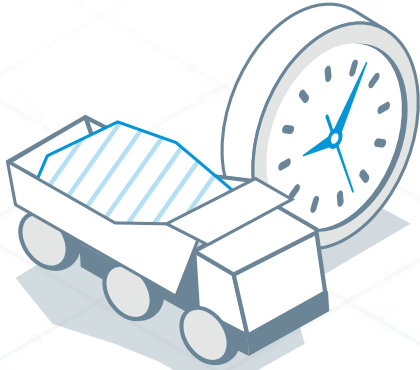

Global Trends

- Skill Shortage
- COVID-19
- Digital Strategy
- 200k people daily added to urban areas
- Industrialized Construction
- \$1T needed to close infrastructure gaps
- Sustainability

Construction is **Collaborative**, Yet **Fragmented**

The Cost of a **Fragmented Industry**

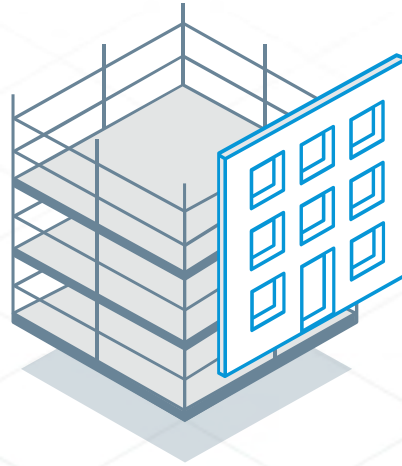

TEAMS

35%

of **time is wasted** on non-optimal activities
(14+ hours/person/week)

Source: *Construction Disconnected* – FMI Report

PROJECTS

\$280B

industry annual **rework costs**
caused by poor project data
and communication

Source: *Construction Disconnected* – FMI Report

BUSINESS

95.5%

of all **data goes unused** in
engineering & construction

Source: *Big Data = Big Questions for the Engineering and Construction Industry* – FMI Report

Digitize

Integrate

Optimize

Digital Twin

What is it?

Dynamic digital reflection of its physical self. Posses the operation and behavioral awareness to simulate, predict, and inform based on real world conditions.

The 5 Levels of Digital Twin

Autonomous

Comprehensive

Predictive

Informative

Descriptive

Digital Twin

Why should you care?

Simulate

Predict

Inform

Digital Twin

Why should you care?

- Biggest trend in AEC
- Linked to a company's business strategy and digital strategy
- **BIM is KEY for a digital twin in AEC**
- Leverages the data and provides Lifecycle value beyond Delivery of Project Value.
- Develop out compelling additional capabilities to provide wider services to your clients.

The New Possible starts with **Connected Construction**

The Autodesk Construction Cloud Evolution

Continued Investment

continue building and enhancing the champion features across all our core products

Meaningful Integrations

create integrations between these products so that they may more effectively be used together

Unification

build a unified platform where all champion features come together under a single log-in for seamless adoption of features across the full digital building lifecycle
